HB25-1291 be amended as follows, and as so amended, be referred to the Committee of the Whole with favorable recommendation:

Amend printed bill, strike everything below the enacting clause and substitute:

"**SECTION 1. Legislative declaration.** (1) The general assembly finds that:

(a) Coloradans increasingly rely on a range of transportation modes, including transportation network companies, to travel to work, school, medical appointments, social gatherings, and more;

(b) Unlike traditional transportation providers, transportation network companies exercise full control over their platforms while classifying drivers as independent contractors rather than employees;

(c) Transportation network companies market their services as safe and convenient for vulnerable populations, including children, individuals with disabilities, and people seeking a responsible ride home after consuming alcohol. However, transportation network company drivers and riders have reported incidents of fraud, sexual assault, physical assault, and homicide.

(d) According to the national institutes of health, drivers providing transportation network company services have an accident rate and a fatal crash incidence rate that is higher than the general population, partly due to the increased hours of driving and driver fatigue;

(e) According to a study conducted by the University of Chicago, transportation network companies account for about a 3% annual increase in traffic-related fatalities, or roughly 987 people, including pedestrians, each year. This increase is due, in part, to the large number of drivers needed to provide quick response times.

(f) Transportation network companies have failed to develop and fully implement adequate protections on their own volition, despite having direct knowledge of serious safety risks to riders and drivers;

(g) Transportation network companies have not effectively prevented the widespread problem of account sharing, where authorized drivers give unauthorized individuals access to their profiles, allowing unauthorized individuals to bypass security measures. Account sharing undermines security and puts riders and the public at risk of harm.

(h) Transportation network companies have long been aware of the systemic problem of sexual assaults committed by their drivers. Internal safety reports confirm thousands of reported sexual assaults over multiple years, yet transportation network companies have not implemented meaningful reforms. The actual number of incidents is likely far higher, as studies show that only 30% of sexual assaults are reported, meaning thousands more victims may have been harmed. Transportation network companies have faced lawsuits from passengers and their own shareholders for failing to disclose the extent of the problem.

(i) Transportation network companies prioritize profits over rider safety, rolling back protections despite billions of dollars in revenue. The cost of a background check is negligible compared to the multibillion-dollar net worth and profit of the industry.

(2) Therefore, the general assembly declares that the people of Colorado require legislation to ensure that all transportation modes, including transportation network companies, are safe, reliable, and just and that the people of Colorado have a transportation system that prioritizes their safety.

House of Representatives
Revisor of Statutes
Thursday, April 17, 2025
Conflict between House Bill 25-1154, Senate Bill 25-264, and Senate Bill 25-275

House Bill 25-1154, concerning communication services for people with disabilities, Senate Bill 25-264, concerning transfers of money from certain cash funds to the general fund, and Senate Bill 25-275, concerning the relocation of certain existing definitions in the Colorado Revised Statutes to aid the reader in ascertaining their applicability to the proper sections of law, amend 40-17-102 and 40-17-104 in a conflicting manner. House Bill 25-1154 repeals and reenacts, with amendments, article 17 of title 40; Senate Bill 25-275 amends 40-17-102 introductory portion, adds 40-17-102 (1.8), and amends 40-17-104 (1)(a); and Senate Bill 25-264 adds 40-17-104 (7). These amendments can not be harmonized because House Bill 25-1154 relocates the definitions in article 17, which currently exist in 40-17-102, to 40-17101. House Bill 25-1154 also relocates the creation of the telephone users with disabilities fund from 40-17-104 to 40-17-102.

House Bill 25-1154 has a safety clause and the relevant sections will take effect upon signature by the Governor. Senate Bill 25-275 has an act subject to petition clause and the relevant sections will take effect on August 6, 2025, unless sent to a vote of the people. Senate Bill 25-264 has a safety clause and the relevant section takes effect upon the signature of the Governor. House Bill 25-1154 is being transmitted back to the House for consideration of Senate amendments on this date. Senate Bill 25-275 is scheduled to be heard in the House State, Civic, Military & Veterans Affairs Committee. Senate Bill 25-264 has been delivered to the Governor for his signature.

The drafter of House Bill 25-1154 is Jennifer Berman, the drafter of Senate Bill 25-264 is Rebecca Bayetti, and the drafter of Senate Bill 25-275 is Kristen Forrestal. They have been informed of the conflict and would be glad to assist you in drafting amendments to achieve the desired results.

FINANCE

After consideration on the merits, the Committee recommends the following:

HB25-1296 be amended as follows, and as so amended, be referred to the Committee on Appropriations with favorable recommendation:

Amend printed bill, strike everything below the enacting clause and substitute:

"**SECTION 1. Legislative declaration.** (1) The general assembly finds and declares that:

(a) (I) House Bill 24-1314 substantially modified the tax credit for qualified costs incurred in the preservation of historic structures by, among other things, expanding the amount of the tax credit available to taxpayers;

(II) As part of modifying the tax expenditure, House Bill 24-1314 also removed the 5% increase in the percentage of rehabilitation expenses incurred in a disaster area for the rehabilitation of a residential structure, but not a commercial structure, that are considered in determining the amount of the tax expenditure;

(III) This act further modifies the tax expenditure by removing the 5% increase in the percentage of rehabilitation expenses incurred in a rehabilitation in a disaster area for the rehabilitation of a commercial structure that are considered in determining the amount of the tax expenditure;

(IV) The primary purpose of the modification of this tax expenditure is to decrease administrative burden by aligning the treatment of expenses incurred in rehabilitating residential and commercial historic structures; and

(V) The modification of this tax expenditure will cause only a de minimis revenue gain that is incidental to the primary purpose of modifying the tax expenditure;

(b) (I) One of the five primary categories of sales that are subject to state sales tax is intrastate telephone and telegraph services;

(II) Interstate telephone and telegraph services are not subject to state sales tax;

(III) Unlike Colorado, twenty-eight states subject interstate telephone and telegraph services to state sales tax if at least one of the nodes of those services is in the state levying the sales tax;

(IV) Like the state, many home rule municipalities in Colorado impose sales tax on intrastate telephone and telegraph services, meaning that some telephone and telegraph services are taxed while others are not;

(V) The primary purpose of repealing this tax expenditure is to further resolve taxpayer confusion and decrease administrative burden by repealing the sales tax exemption to make it clear that all telephone and telegraph services are subject to sales tax; and

(VI) The repeal of this tax expenditure will cause only a de minimis revenue gain that is incidental to the primary purpose of repealing the tax expenditure;

(c) (I) The purpose of the business personal property tax income tax credit is to minimize the negative impact of the business personal property tax on businesses;

(II) As referenced in the office of the state auditor's 2024 evaluation of the business personal property tax income tax credit, Colorado also exempts businesses with business personal property below a dollar threshold from filing and paying the tax altogether. That threshold is currently $52,000. Only twelve other states have some type of exemption for business personal property. Unlike Colorado, no state has both an exemption and an income tax credit for business personal property taxes paid.

(III) The office of the state auditor's 2024 evaluation of the business personal property tax income tax credit indicated that less than 1% of business personal property taxpayers in the state claim the income tax credit and many of those credits were claimed erroneously or were miscalculated, suggesting that the cost of administering the income tax credit is larger than its benefit to taxpayers;

(IV) Taxpayers can already deduct property taxes as ordinary and necessary business expenses on their federal income tax returns, which also reduces their state tax liability, meaning that the business personal property tax income tax credit is partially duplicative; and

(V) Therefore, the purpose of repealing the business personal property tax income tax credit is to reduce administrative burden and increase administrative efficiency by removing a duplicative tax expenditure that is rarely being claimed. The repeal of this tax expenditure will only cause a de minimis revenue gain that is incidental to the primary purpose of repealing the tax expenditure.

(d) (I) The purpose of the enterprise zone investment tax credit, which awards a tax credit in proportion to the amount of a taxpayer's investment within certain areas of Colorado, is to incentivize the formation of businesses and the creation of jobs within economically distressed parts of Colorado;

(II) As referenced in the office of the state auditor's 2020 evaluation on the enterprise zone investment tax credit, most businesses that currently claim the enterprise zone investment tax credit are inherently highly location-dependent and therefore are not as incentivized or disincentivized by a tax expenditure that rewards investment within certain areas of Colorado;

(III) The purpose of limiting the amount of, and who may qualify for, the enterprise zone investment tax credit is to narrow the scope of the tax expenditure so that it will achieve its original purpose of incentivizing the formation of businesses and the creation of jobs within economically distressed parts of Colorado; and

(IV) The modification of this enterprise zone investment tax credit will cause only a de minimis revenue gain that is incidental to the primary purpose of modifying the enterprise zone investment tax credit to better achieve its original purpose; and

(e) Overall, the purpose of all of the modifications to tax expenditures in this House Bill 25-1296 is to better align the tax expenditures with the general assembly's intent in enacting these tax expenditures, to improve administrative efficiency, to reduce administrative burden, and to conform Colorado's tax code with provisions commonly used in other states so that Colorado is less of an outlier around the country in how taxpayers compute their taxes owed. Any revenue gained through the modifications to tax expenditures in this House Bill 25-1296, from modifications that narrow or expand tax expenditures, is clearly de minimis and incidental.

(f) Therefore, consistent with the Colorado supreme court's holding in *TABOR Found. v. Reg'l Transp. Dist.*, 2018 CO 29, that legislation that causes only an incidental and de minimis tax revenue increase does not amount to a new tax or a tax policy change that requires voter approval in advance under section 20 of article V of the state constitution, the modifications to tax expenditures in this act are neither new taxes nor tax policy changes that require voter approval.

SECTION 2. In Colorado Revised Statutes, 25-1.5-106, **amend** (16)(a) as follows:

25-1.5-106. Medical marijuana program - powers and duties of state health agency - rules - medical review board - medical marijuana program cash fund - subaccount - created - "Ethan's Law" - definitions - repeal. (16) **Fees.** (a) The state health agency may collect fees from patients who, pursuant to section 14 of article XVIII of the state constitution or subsection (9) of this section, apply to the medical marijuana program for a registry identification card for the purpose of offsetting the state health agency's direct and indirect costs of administering the program. The amount of the fees shall be set by rule of the state health agency. The amount of the fees set pursuant to this section shall reflect the actual direct and indirect costs of the state licensing authority in the administration and enforcement of this article so that the fees avoid exceeding the statutory limit on uncommitted reserves in administrative agency cash funds as set forth in section 24-75-402 (3). The state health agency shall not assess a medical marijuana registry application fee to an applicant who demonstrates, pursuant to a copy of the applicant's state tax return certified by the department of revenue OR A COPY OF THE APPLICANT'S FEDERAL TAX RETURN RECEIVED FROM THE INTERNAL REVENUE SERVICE, that the applicant's income does not exceed one hundred eighty-five percent of the federal poverty line, adjusted for

family size. All fees collected by the state health agency through the medical marijuana program shall be transferred to the state treasurer who shall credit the same to the medical marijuana program cash fund, which fund is hereby created.

19-2.5-701.5. Definitions. As used in this part 7, unless the context otherwise requires:

(1) "Competency evaluation" means ~~an evaluation~~ A COURT-ORDERED EVALUATION PERFORMED BY THE DEPARTMENT, OR A SECOND EVALUATION CONDUCTED PURSUANT TO SECTION 19-2.5-707, conducted by a competency evaluator that meets the requirements described in section 19-2.5-703 (4). ~~"Competency evaluation" includes both court-ordered evaluations performed by the department and second evaluations.~~

(6) "Restoration evaluation" means ~~an evaluation~~ A COURT-ORDERED EVALUATION PERFORMED BY THE DEPARTMENT, OR A SECOND EVALUATION CONDUCTED PURSUANT TO SECTION 19-2.5-707, conducted by a competency evaluator to determine if the juvenile has become competent to proceed or will be able to be restored to competency in the reasonably foreseeable future. ~~"Restoration evaluation" includes both court-ordered evaluations by the department and second evaluations.~~

SECTION 14. In Colorado Revised Statutes, 19-2.5-704, **amend** (2)(b) and (2)(c) as follows:

19-2.5-704. Procedure after determination of competency or incompetency. (2) (b) Pursuant to section 27-60-105, the department is the entity responsible for the oversight of restoration education and coordination of services necessary to competency restoration. THE DEPARTMENT SHALL ONLY CONDUCT A RESTORATION EVALUATION WITH A COURT ORDER PURSUANT TO SUBSECTION (2)(c) OF THIS SECTION.

(c) (I) The court, ~~or~~ a party, OR THE DEPARTMENT may raise, at any time, the need for a restoration evaluation of a juvenile's competency. THE REQUEST MUST INCLUDE THE FACTUAL GROUNDS THAT SUPPORT THE NEED FOR A RESTORATION EVALUATION.

(II) (A) THE COURT MUST ENSURE PROMPT RESOLUTION OF ANY REQUEST FOR A RESTORATION EVALUATION.

(B) THE COURT SHALL ORDER EACH PARTY TO STATE THEIR POSITION AND PROVIDE INPUT ON THE REQUEST NO LATER THAN FOURTEEN DAYS AFTER WHEN THE PARTY WAS NOTIFIED OF THE REQUEST; EXCEPT IF THE JUVENILE IS IN CUSTODY OR INPATIENT RESTORATION, THE COURT SHALL ALLOW SEVEN DAYS FOR A PARTY TO OBJECT TO THE REQUEST. IF THE PARTIES ARE BEFORE THE COURT, THE COURT MAY TAKE POSITIONS ON THE RECORD, OR THE COURT MAY ORDER A WRITTEN POSITION FROM EACH PARTY AS NECESSARY.

(C) IF NO PARTY OBJECTS, THE COURT SHALL ORDER THE RESTORATION EVALUATION FORTHWITH.

(D) IF A PARTY OBJECTS, THE PARTY SHALL STATE THE GROUNDS FOR THEIR OBJECTION.

(III) If ~~raised~~ A PARTY TIMELY OBJECTS TO A RESTORATION EVALUATION BEING ORDERED, the court shall order a restoration evaluation only when there is credible information that the juvenile's circumstances have changed, the court cannot fairly determine whether the juvenile has been restored to competency or will be able to be restored to competency in the reasonably foreseeable future WITHOUT AN EVALUATION, and the cause for a restoration evaluation outweighs the negative impact of a restoration evaluation upon the juvenile. ~~and any delay that will be caused by a restoration evaluation.~~ THE COURT MAY RULE ON A REQUEST BASED ON THE INFORMATION RECEIVED WITH THE REQUEST AND WITH ANY OBJECTION WITHOUT A HEARING, OR IF THE COURT FINDS A HEARING IS NECESSARY TO RULE ON THE REQUEST, the court may hold a hearing WITHIN FOURTEEN DAYS AFTER RECEIVING AN OBJECTION to determine if a restoration evaluation must be ordered. If the court orders a restoration evaluation, such evaluation must meet the requirements of section 19-2.5-703 (4).".

CONSIDERATION OF GOVERNOR'S VETO

April 24, 2025

75th Colorado General Assembly
First Regular Session
Colorado State Capitol
Denver, CO, 80203

Dear Honorable Members of the Colorado State Senate:

Today, I vetoed Senate Bill 25-086 (SB25-086), "Protections for Users of Social Media" at 4:15 p.m.

SB25-086 is intended to address legitimate concerns regarding the safety of children online. My administration takes very seriously our obligation to promote and protect the public safety of everyone across our state,

especially minors, both in physical spaces and online ones, and we share the concerns that prompted this bill. Just as when the telephone was invented by Alexander Graham Bell to connect people and ideas, it was later used for criminal activity and government surveillance, it's also true that as social media platforms have become more popular, they too are used for illegal activity. Notably, e-mail, including group listservs, can and is also used for illicit activity and receives a full exemption from the legislation.

Despite good intentions, this bill fails to guarantee the safety of minors or adults, erodes privacy, freedom, and innovation, hurts vulnerable people, and potentially subjects all Coloradans to stifling and unwarranted scrutiny of our constitutionally protected speech.

Make no mistake, I share the concerns of parents and law enforcement across our state about minors and adults exposed to illegal activity on social media platforms as well as in neighborhoods. This is why my office offered suggestions focused on strengthening tools to help law enforcement successfully apprehend criminals. Sadly, the bill sponsors rejected these ideas and passed legislation that, to my mind, unduly infringes on the speech, privacy, and liberty rights of all users.

Alarm regarding this bill's application and implications for privacy and free speech have notably garnered opposition from across the political spectrum. Concerns have been raised by representatives of ProgressNow Colorado and the Independence Institute, not generally easy allies. ACLU, FIRE (the Foundation for Individual Rights and Expression), Parkview Institute, Chamber of Progress, and New Era Colorado have also expressed various concerns including that this bill may cause severe harm, hurt other vulnerable populations, and stifle innovation.

This law imposes sweeping requirements that social media platforms, rather than law enforcement, enforce state law. It mandates a private company to investigate and impose the government's chosen penalty of permanently deplatforming a user even if the underlying complaint is malicious and unwarranted. In our judicial proceedings, people receive due process when they are suspected of breaking the law. This bill, however, conscripts social media platforms to be judge and jury when users may have broken the law or even a company's own content rules. This proposed law would incentivize platforms, in order to reduce liability risk, to simply deplatform a user in order to comply with this proposed law.

Further, the costly and mandatory data and metadata collection requirements in this bill throw open the door for abuse by guaranteeing the availability of sensitive information such as user age, identities, and content viewed, and these reports could even be made public at the discretion of the Attorney General. This is not a speculative concern: people have been prosecuted for online searches related to reproductive health care access, and people have been detained and deported due to activity on social media platforms.

This kind of data collection threatens user privacy for those who may be searching for reproductive safeguards in the bill for how this data would be secured or shared. This creates additional legal jeopardy, as well as the potential for blocking Colorado users from accessing or participating in social media to avoid costly compliance with this law. Importantly, recent U.S. Supreme Court cases suggest that content moderation laws that result in the deplatforming of users will not withstand constitutional scrutiny. For a state that prides ourselves on being forward-looking and innovative, this is simply an unacceptable outcome.

Of course, many Coloradans rely on friends they've made through online social networks to help them get through hard times and as a personal support structure. But social media platforms do more than provide a platform for free expression and engagement. These platforms are also inextricable from the successes of small businesses and individuals who make a living online. Removing users as this bill demands will have devastating consequences on the livelihoods of many Coloradans that use social media platforms, with the largest economic impact being felt by content creators and small businesses that cannot afford website platforms or professional marketing campaigns. There have been instances across platforms of influencers, entrepreneurs, and even individual users being deplatformed for content related to breastfeeding, for example - this measure would give that action the full force of government. Any sales pitch - be it for wellness products, gunsmithing classes, or mental health supports for marginalized youth - would be subject to a private entity's interpretation of its legality, with an incentive to err on the side of deplatforming, and the consequence could be permanent removal. Stripping users of cost-effective customer engagement and marketing opportunities is a potential consequence of this law.

Colorado can and should do more to help law enforcement investigate and prosecute criminal activity that occurs on social media platforms and in physical spaces. I support all provisions of this bill that give Colorado law enforcement more tools to successfully do their jobs and apprehend criminals, and I hope that the legislature send me such a bill with these provisions as soon as possible. In fact, I believe the law enforcement provisions should be strengthened. No company, no matter its size, should delay in responding quickly to warrants or subpoenas from law enforcement on matters like illicit drug sales or human trafficking. I welcome laws that will achieve the purpose of enhancing public safety online without infringing on the right to free speech and expression, or having private entities step into roles that should be the purview of law enforcement. I invite the proponents of this bill to engage with our office and others on bolstering law enforcement authority to expediently obtain information of criminal activity from social media platforms, and to enhance online tools for parents to protect children.

Fundamentally, it is also important to recognize the role of our federal government in setting consistent, nationwide regulations on issues that impact all users in America. Rather that create a 50-state statutory patchwork, which is a huge barrier to entry for both consumers and for the next great innovation and start up, it is incumbent upon our federal partners in Congress to determine the parameters of social media companies' obligation to keep their users safe nationwide.

I look forward to continuing to work together to achieve the goals of protecting kids and adults online and in physical spaces. However, the approach set forth in SB25-086 risks undermining efforts to protect the right of free speech and dissent, and empowers social media companies with police-like powers to make or break someone's lives and livelihood in a time when free expression is absolutely critical-and vulnerable-for the success of our democracy.

For the reasons stated above, SB25-086 is disapproved and vetoed.

Sincerely,

/signed/
Jared Polis

State of Colorado

12-223-102. Legislative declaration. (1) THE GENERAL ASSEMBLY FINDS AND DECLARES THAT:

(a) THE PRACTICE OF MEDICAL NUTRITION THERAPY IS ESSENTIAL TO PROTECTING AND PROMOTING THE HEALTH, SAFETY, AND WELFARE OF THE PEOPLE OF COLORADO. THE ABSENCE OF LICENSURE AND REGULATION FOR INDIVIDUALS ENGAGED IN THIS PRACTICE HAS RESULTED IN SIGNIFICANT RISKS, INCLUDING THE PROVISION OF CARE BY UNQUALIFIED PRACTITIONERS, INEQUITABLE ACCESS TO CRUCIAL NUTRITION SERVICES IN UNDERSERVED COMMUNITIES, AND INEFFICIENT UTILIZATION OF REGISTERED DIETITIANS IN HEALTH-CARE SETTINGS.

(b) TO MITIGATE THESE RISKS AND ENSURE THE DELIVERY OF SAFE, HIGH-QUALITY NUTRITION CARE, IT IS NECESSARY TO ESTABLISH A LICENSURE FRAMEWORK THAT FORMALLY RECOGNIZES AND REGULATES THE PRACTICE OF MEDICAL NUTRITION THERAPY. THIS FRAMEWORK WILL PROTECT CONSUMERS FROM HARM, INCREASE ACCESS TO ESSENTIAL CARE, FACILITATE PARTICIPATION IN THE NATIONAL DIETITIAN LICENSURE COMPACT, AND ENABLE COLORADO TO ALIGN WITH NATIONAL STANDARDS, THEREBY EXPANDING THE WORKFORCE OF QUALIFIED PRACTITIONERS AND IMPROVING OUTCOMES FOR PATIENTS ACROSS THE STATE.

(c) THIS LICENSURE PROGRAM IS NARROWLY TAILORED TO REGULATE ONLY THE PRACTICE OF MEDICAL NUTRITION THERAPY WHILE EXPLICITLY PRESERVING THE ABILITY OF OTHER PROFESSIONALS AND INDIVIDUALS TO PROVIDE GENERAL NUTRITION GUIDANCE AND WELLNESS SERVICES. THROUGH THIS ACTION, THE GENERAL ASSEMBLY REAFFIRMS ITS COMMITMENT TO ENSURING EQUITABLE AND AFFORDABLE HEALTH CARE AS WELL AS THE SAFETY AND WELL-BEING OF ALL COLORADANS.

(4) "LICENSED DIETITIAN" MEANS AN INDIVIDUAL LICENSED UNDER THIS ARTICLE 223 AS MEETING THE REQUIREMENTS OF SECTION 12-223-107 (1) TO PRACTICE DIETETICS AND NUTRITION, INCLUDING THE PROVISION OF MEDICAL NUTRITION THERAPY.

(5) "LICENSED NUTRITIONIST" MEANS AN INDIVIDUAL LICENSED UNDER THIS ARTICLE 223 AS MEETING THE REQUIREMENTS OF SECTION 12-223-108 (1) OR (4) TO PRACTICE NUTRITION, INCLUDING THE PROVISION OF MEDICAL NUTRITION THERAPY.

(6) "MEDICAL NUTRITION THERAPY" MEANS THE PROVISION OF ONE OR MORE OF THE FOLLOWING NUTRITION CARE SERVICES FOR THE PURPOSE OF MANAGEMENT OR TREATMENT OF A DISEASE OR MEDICAL CONDITION:

In any enforcement action brought on or after ~~February 1, 2026~~ JANUARY 1, 2027, by the attorney general pursuant to section 6-1-1706, there is a rebuttable presumption that a developer used reasonable care as required under this section if the developer complied with this section and any additional requirements or obligations as set forth in rules ~~promulgated~~ ADOPTED by the attorney general pursuant to section 6-1-1707.

(2) On and after ~~February 1, 2026~~ JANUARY 1, 2027, and except as provided in subsection (6) of this section, a developer of a high-risk artificial intelligence system shall make available to the deployer or other developer of the high-risk artificial intelligence system:

(3) (a) Except as provided in subsection (6) of this section, a developer that offers, sells, leases, licenses, gives, or otherwise makes available to a deployer or other developer a high-risk artificial intelligence system on or after ~~February 1, 2026~~ JANUARY 1, 2027, shall make available to the deployer or other developer, to the extent feasible, the documentation and information, through artifacts such as model cards, dataset cards, or other impact assessments, necessary for a deployer, or for a third party contracted by a deployer, to complete an impact assessment pursuant to section 6-1-1703 (3).

(7) On and after ~~February 1, 2026~~ JANUARY 1, 2027, the attorney general may require that a developer disclose to the attorney general, no later than ninety days after the request and in a form and manner prescribed by the attorney general, the statement or documentation described in subsection (2) of this section. The attorney general may evaluate such statement or documentation to ensure compliance with this part 17, and the statement or documentation is not subject to disclosure under the "Colorado Open Records Act", part 2 of article 72 of title 24. In a disclosure pursuant to this subsection (7), a developer may designate the statement or documentation as including proprietary information or a trade secret. (g) On or before ~~February 1, 2026~~ JANUARY 1, 2027, and at least annually thereafter, a deployer, or a third party contracted by the deployer, must review the deployment of each high-risk artificial intelligence system deployed by the deployer to ensure that the high-risk artificial intelligence system is not causing algorithmic discrimination.

(7) If a deployer deploys a high-risk artificial intelligence system on or after ~~February 1, 2026~~ JANUARY 1, 2027, and subsequently discovers that the high-risk artificial intelligence system has caused algorithmic discrimination, the deployer, without unreasonable delay, but no later than ninety days after the date of the discovery, shall send to the attorney general, in a form and manner prescribed by the attorney general, a notice disclosing the discovery.

(9) On and after ~~February 1, 2026~~ JANUARY 1, 2027, the attorney general may require that a deployer, or a third party contracted by the deployer, disclose to the attorney general, no later than ninety days after the request and in a form and manner prescribed by the attorney general, the risk management policy implemented pursuant to subsection (2) of this section, the impact assessment completed pursuant to subsection (3) of this section, or the records maintained pursuant to subsection (3)(f) of this section. The attorney general may evaluate the risk management policy, impact assessment, or records to ensure compliance with this part 17, and the risk management policy, impact assessment, and records are not subject to disclosure under the "Colorado Open Records Act", part 2 of article 72 of title 24. Pursuant to House Rule 24 of the Colorado House of Representatives, the House Minority Caucus officially protests actions that occurred, on the 119th day of the First Regular Session of the 75th General Assembly. During debate on the House floor, a breakdown of decorum and process occurred.

An elected Representative was presenting an amendment to the Committee of the Whole Report and was interrupted by the Speaker of the House to recognize a motion by the Majority Leader. The Representative held the well and was not ejected making the action by the Speaker of the House a hostile eviction. The House floor is a place where debate is supposed to occur and where competing ideas can be heard. Such action undermines the integrity of the institution.

It does not matter if it is a member of the Majority or Minority, Republican or Democrat; no elected member should ever be treated with a lack of adherence to tradition, custom and practice, and general legislative rules. Interrupting and prohibiting an elected member from speaking is not only an affront to their right to speak from the well but also an affront to the thousands of constituents that they represent. This hostile eviction from the well now becomes the institutional knowledge of newer members, who could be here for multiple terms.

It is the duty of all elected members to make sure that institutional integrity is maintained and passed on so the citizens can retain and build faith in their government. Therefore, it is imperative on us to protest this action and demand that it never occur again.

Dear Honorable Members of the Colorado State House of Representatives:

Today, I vetoed House Bill 25-1065, "Jury Duty Opt-Out for Certain People" at 2:03 p.m.

This bill creates an exemption from jury duty based solely on age. The proposed law would allow any 72 year or older person to temporarily or permanently opt-out of their civic responsibility of jury duty strictly

because of the date when they were born. Similar to the fundamental right to vote in safe and secure elections, the right to trial by a jury of one's peers is a cornerstone of American democracy.

Between 2025 and 2050, the population of Coloradans aged 72 or older is expected to grow from nearly 580,000 to just under 1,000,000. Older adults have so much to contribute to our communities and a state law that creates an arbitrary age-based threshold for exclusion from one's civic duty isn't warranted. A jury of one's peers means representation from all age groups. This broad brush bill is not consistent with our notion of civic responsibility in general, and, more specifically, to building a Colorado for all, which includes older Coloradans who have a wealth of life experience and accumulated wisdom to offer through jury service.

Individuals may have good reasons to request a postponement of their jury service. I am open to the discussion of expanding this ability based on non age-based criteria. Colorado law already includes a number of exemptions for potential jurors in various situations. As a matter of right in state statute, a trial juror can postpone their juror service for up to six months for any reason. Other exemptions exist for family caregivers, those with a physical or mental health issue, people who are breastfeeding, those who are temporarily out of the state, and out-of-state students. Notably, none of these exemptions are specific with regard to age. In addition, it is already possible for someone to be permanently disqualified from jury service due to permanent physical hardship, which can be the case for anyone of any age, including the elderly. In the future, the legislature might revisit whether the list of acceptable exemptions is adequate, and consider adding additional narrowly tailored exemptions that could be used by older Coloradans and Coloradans of all ages should they be necessary, rather than a blanket opt-out approach based solely on age.

The impact and honor that comes from participation in our legal system and as a member of a jury of one's peers is well-researched and well-documented. This responsibility is not meant to be treated lightly, nor is it necessarily convenient. It is intended to ensure that "we the people" are active participants in the judicial system to ensure fairness and impartiality. I, too, have served on a jury and understand the importance of a jury of one's peers, regardless of age.

More than 200 hundred years ago, Thomas Jefferson wrote to Thomas Paine, "I consider [the trial by jury] as the only anchor, ever yet imagined by man, by which a government can be held to the principles of its constitution." Understanding our role in government and maintaining our place in it arc essential to the viability of our democracy. Jury service is central to our democracy. It is a great responsibility that I encourage us all to respect and cherish throughout our lives.

For the above reasons, House Bill 25-1065 is disapproved and vetoed.

Sincerely,

/singed/

Dear Honorable Members of the Colorado State House of Representatives:

Today, I vetoed House Bill 25-1147 (HB25-1147), "Fairness & Transparency in Municipal Court" at HB25-1147 would make the maximum sentence for a municipal ordinance violation equivalent to the sentence for a comparable state-level criminal offense. If a municipal ordinance has no comparable state-level offense, the maximum penalty is equivalent to a state-level petty offense penalty. The bill also clarifies that defendants in municipal court have the right to counsel, and that court proceedings need to be open to public observation, including virtual observation for all in-custody proceedings.

I appreciate the bill sponsors' good intentions of bringing forward policies that address transparency and the right to counsel in municipal court. However, the bill also significantly restricts a municipality's ability to react to local crime trends in ways that a local government deems most appropriate to improve public safety in their community. It is not in the interest of increasing public safety to constrain a municipality's ability to set appropriate sentences for crimes within their borders. Criminal justice and public safety issues are a shared concern among state and local lawmakers, and municipalities must have the ability to adopt laws to increase public safety based on the public safety challenges on the ground in each community.

I heard from police chiefs, cities and towns, mayors, victim advocates, and business groups from around the state about the detrimental effect that this bill would have on public safety should it become law. Specifically, this bill would undermine numerous local ordinances that have been thoughtfully debated and adopted to address locality-specific crimes, including bike theft, assault, and domestic violence. This is especially the case when municipalities have ordinances that do not have state-level analogs. For example, I heard concerns from Denver that their assault ordinance contains different elements than that of the state-level offense, and would not be considered a comparable offense under the bill. This means that under HB 25-1147, the maximum penalty for an individual convicted of a domestic violence assault under Denver's ordinance would be reduced from a maximum potential penalty of 300 days in jail with up to a $999 fine, to a maximum of 10 days in jail and/or a fine of $300. Whether intended or not, the reduction of penalties for crimes such as assault does not serve the interests of victims or hold offenders accountable.

Further, this bill runs counter to previous legislation that I have signed giving more tools to local governments to improve public safety. For example, in 2021, I signed Senate Bill 21-256, which deemed the

regulation of firearms to be a matter of state and local concern and allowed local governments to pass laws regarding firearms that are more stringent than state law.

Additionally, the Colorado Supreme Court heard oral arguments this week in two cases related to the sentencing scheme in this bill, and it would be informative to see how the Court rules before changing the law.

While I oppose certain elements of the bill regarding limits on municipal sentencing, I applaud the sponsors for including provisions that clarify that a defendant in municipal court has the right to counsel. This should already be the case, but I support clarifying this right in statute. I also applaud the sponsors for working to provide more transparency in municipal court by clarifying that proceedings should be open to the public, including through online platforms. During the legislative process, the Colorado Municipal League offered amendments that would have narrowed the bill to these two topics, though their amendments were rejected. I would support a bill focused on those provisions, or a bill more narrowly tailored to specific crimes where penalties between the state and local criminal codes are far out of balance. I also support efforts to connect municipal defendants with resources and services to help address underlying challenges with mental health, substance use, and housing instability, and would support legislative efforts in this space.

The far-reaching sentencing changes contemplated in HB 25-1147 could have been better examined by a successor entity to the Commission on Criminal and Juvenile Justice (CCJJ), with multidisciplinary stakeholders from all aspects of the criminal justice system at the table to come to consensus recommendations on the policy. In the absence of a successor entity to the CCJJ to examine difficult criminal justice issues with the benefits of data, research, and time, I urge the legislature to work with the many stakeholders impacted by municipal sentencing to find a more nuanced approach.

For the reasons stated above, HB25-1147 is disapproved and vetoed.

Sincerely,

Dear Honorable Members of the Colorado House of Representatives:

Today, I vetoed House Bill 25-1220 "Concerning the regulation of medical nutrition therapy" at 2:55 p.m.

In December 2024, pursuant to C.R.S. §24-34-104.1(1), the Colorado Office of Policy, Research and Regulatory Reform (COPRRR) within the Department of Regulatory Agencies (DORA), issued a sunrise report recommending to not regulate Medical Nutrition Therapy as practiced by dietitians and nutritionists due to a lack of evidence of harm to justify regulation of this entire group of professionals. The report's recommendations are well-researched and thorough, based on the statutory criteria established in law by the General Assembly. Given the report's findings, I disagree with the need for regulation of this profession as envisioned in House Bill 25-1220.

The bill also creates a system whereby only some professionals in the industry require licensure, while others do not, based on their provision of Medical Nutritional Therapy. A system where professionals elect to licensure based on their interpretation of their provision of specific services is highly unusual, and vulnerable to misuse.

For the reasons above, House Bill 25-1220 is disapproved and vetoed. I look forward to evaluating future sunrise reports for all professionals practicing in this industry. Creating a new regulatory schema should be done in a thoughtful manner that meaningfully protects the public from harm.

Dear Honorable Members of the Colorado House of Representatives:

Today I vetoed House Bill 25-1291, "Transportation Network Company Consumer Protection" at 2:55 p.m. I appreciate the sponsors' work and effort on this bill and their commitment to improving safety for rider and drivers alike.

While I appreciate the sponsors' intent to ensure the safety of riders and drivers, House Bill 25-1291 (HB 25-1291) would impose unworkable regulations on Transportation Network Companies (TNCs), and potentially jeopardize their continued operation in Colorado. I want to make sure that Uber, Lyft, and others will be able to continue to operate in Colorado, but are far more accountable for the safety of riders and drivers. These services go beyond convenience by providing essential means of travel for many Coloradans and improve public safety primarily by reducing driving under the influence.

In June 2014, Colorado became the first state to enact a law regulating on-demand TNCs. At that time, the rideshare industry was relatively nascent, and our pathbreaking regulatory structure under the Public Utilities Commission (PUC) provided important regulatory certainty and safeguards. Colorado also passed nation-leading legislation last year (SB 24-075) focused largely on enhancing the rights of TNC drivers, though not addressing the PUC's regulatory authority in this area. Given changes in the TNC industry since Colorado passed its novel law a decade ago, it is reasonable to revisit our regulatory structure and ensure agencies have appropriate authority to safeguard health and safety.

I believe we should take further steps to stop any type of assault or harassment that occurs within TNCs against drivers or passengers. These stories are harrowing and awful, and no one should have to face danger just because they take a rideshare. I commend the sponsors for their dedication in addressing a challenging and sensitive issue. I also want to thank the survivors who have bravely come forward to share their experiences—your voices matter deeply, and we are committed to taking meaningful steps to ensure you continue to be heard and that these companies are held accountable. Enhancing safety in rideshares is a goal I share as we work to make Colorado one of the ten safest states.

However, this legislation goes beyond a narrowly tailored public safety focus and includes a number of concerning provisions — including unclear language on audio-video recording, a prohibition on arbitration that we believe conflicts with the Federal Arbitration Act, and inoperable timelines to produce new regulatory rules.

Together, these changes would jeopardize these services in Colorado to an untenable degree, and could very well lead to companies that Coloradans rely on exiting the market, raising prices, or reducing the number of drivers. This in turn would create economic hardship for the thousands of people who rely on the platforms for income and to go to medical appointments, as well as potentially add more drunk drivers to the road. I've received various outreach expressing concerns about potential disruption to rideshare services, including from MADD, Rocky Mountain Victim Law Center, and AAA, who wrote in a joint letter to my office, "[r]idesharing is an extremely valuable tool for saving lives on our roads. We're concerned that a disruption or even a reduction in rideshare services could impact DUI prevention efforts, resulting in more deaths and injuries on Colorado roads."

Specific to the bill, I am concerned about the language around audio-visual recording, which was modified at the last minute and is likely unworkable for both the PUC and TNCs as currently constructed. Drivers and riders are entitled to privacy, and while I appreciate the movement on this issue, the net effect of the remaining language in the bill still strongly suggests making recording mandatory, which will put this law in direct conflict with other state privacy laws and make compliance a challenge. Moreover, the relevant data retention pieces remain challenging, without ensuring proper security protocols, and creates operational difficulties.

Other problematic provisions create significant legal hazard. For example, the language prohibiting arbitration clauses in rider agreements is likely preempted by federal law. I fear victims attempting to bring a claim in

court in reliance of this bill will have their claims dismissed based on federal law and the arbitration clauses in the user terms and agreements, causing substantial delay in victims achieving relief from the TNCs. Provisions around deactivation limit due process for drivers and put TNCs in the position of judge and jury just one year after we strengthened drivers' rights in this area. I am also troubled that, despite expanding the disqualifying criteria for drivers based on some types of criminal history, the bill decreases the amount of time between when a DUI has occurred and when a driver can again get behind a rideshare wheel, which could actually make TNCs less safe, the opposite of the intent of the legislation.

Even though I am vetoing this legislation, I am directing my administration to take active steps, in partnership with the sponsors and proponents of HB 25-1291, to enhance rideshare safety. And I am also challenging TNCs to do more to protect riders and drivers, including being more transparent about their rights, and more vigorous in preventing serious crimes. The status quo isn't sufficient. Enhancing criminal record checks for drivers and preventing bad actors, including impersonators, from getting behind the wheel are commonsense steps we can and should take, and steps we can address now.

Today, we are taking action to do just that. First, I am directing the Department of Regulatory Agencies (DORA) to work with the sponsors of HB25-1291 and other interested parties to identify shared policy objectives that can be achieved through immediate executive action and through targeted legislative policy during the 2026 legislative session.

Beyond the development of these shared policy goals, I am directing DORA to work with the PUC to review their current rules for TNCs and strengthen them where authority currently exists — with a particular focus on safety specifically including strengthened driver impersonation and penalties. I am also requesting the PUC consider performing enhanced audits to ensure TNCs are complying with background check requirements and previous commitments made by the TNC industry to exceed the baseline statutory requirements. This work should be done in consultation with the sponsors and advocates of HB25-1291 as well as other stakeholders.

I believe it is not yet well understood that the PUC is the primary industry watchdog and regulator, and is where consumers should direct complaints. As such, I am directing DORA to work with PUC to conduct additional outreach to ensure consumers are aware of the PUC's regulatory role and how to file complaints. Additionally, I am encouraging the PUC to take a holistic approach to its current rules and determine what additional safety enhancements it can undertake under the existing statute, and where it may need additional authority.

This year the Colorado Office of Policy, Research & Regulatory Reform (COPRRR) within DORA will undertake a sunset review of the PUC. That process will culminate in a series of legislative recommendations, including recommendations regarding the PUC's authority over TNCs, which I look forward to partnering with the legislature to move forward in the 2026 legislative session. As DORA undertakes that review, I am specifically directing it to explore recommendations to update the TNC regulatory structure and, if needed, expand the PUC's authority in regulating TNCs, with a specific focus on passenger safety and enhanced

transparency for consideration in the 2026 legislative session. I also direct DORA to convene all impacted stakeholders during the sunset review, including the sponsors and those who actively participated in the development of HB25-1291. I am also directing my staff to work closely with all interested parties to ensure their concerns are considered during the sunset process.

I thank the sponsors for their dedication to this challenging issue and look forward to working with them on these upcoming actions. HB 25-1291 should not represent the end of this conversation on ride share safety. It is my sincere hope and intention that HB25-1291 and the executive actions outlined in this letter will represent a momentum-building moment for our collective efforts to hold TNC companies accountable in addressing the gaps in TNC rider and driver safety. I look forward to continuing this work with the bill sponsors over the next year building upon these immediate executive actions and forthcoming collaboration on potential additional legislative solutions to champion in the 2026 legislative session.

For the above reasons, HB25-1291 is disapproved and vetoed.

Sincerely,

Dear Honorable Members of the Colorado State House of Representatives:

Today, I vetoed House Bill 25-1004 (HB25-1004), "No Pricing Coordination Between Landlords," at 3:50 p.m.

HB 25-1004 would prohibit the sale, distribution, or use of algorithmic devices using nonpublic and public competitor data to coordinate the setting of price or occupancy levels between two or more landlords, and would deem a violation of the prohibition to be an illegal restraint of trade or commerce under the Colorado Antitrust Act of 2023.

I agree with the sponsors that, of course, collusion between landlords for purposes of artificially constraining rental supply and increasing costs on renters is wrong. To be clear, if that is occurring, it already violates the Colorado Antitrust Act, which makes entering into or engaging in a contract, a conspiracy, or another form of combination in the restraint of trade or commerce illegal. Violators should be held accountable. These actions are especially egregious if the largest property management companies use this technology to take advantage of renters who do not have access to the information that the landlords share. If there are insufficient or under-resourced areas of Colorado Antitrust Act enforcement, I hope to work with sponsors to address those in a non product-specific way to benefit Colorado consumers including in this case if illegal collusion is occurring.

While I understand the intent of this bill, I have grave concerns about prohibiting companies using algorithmic pricing software derived from multiple data sources from doing business in Colorado. Reducing market friction through legitimate means that do not entail collusion is good for both renters and landlords. We should not inadvertently take a tool off the table that could identify vacancies and provide consumers with meaningful data to help efficiently manage residential real estate to ensure people can access housing. If signed today, this bill may have unintended consequences of creating a hostile environment for providers of rental housing and could result in further diminished supply of rental housing based on inadequate data. The cost of rent is already too high.

I share the sponsors' concerns regarding how rent algorithmic devices might conceivably be developed by companies and used by landlords to drive up rents and cost. While I prefer to wait for current state and federal investigations to run their course - including those Colorado is a party to- I am potentially open to supporting a bill next year that addresses the goals of HB 25-1004 and makes a distinction between collusive and non-collusive uses of nonpublic competitor data. I also enthusiastically offer to partner on improving authority and resources related to the successful enforcement of the Colorado Antitrust Act to better protect consumers.

For the reasons above, HB25-1004 is disapproved and vetoed.

Sincerely,

Dear Honorable Members of the Colorado State House of Representatives:

Today, I vetoed House Bill 25-1026 (HB25-1026), "Repeal Copayment for Department of Corrections Inmate Health Care" at 3:50 p.m.

HB25-1026 would prohibit the Colorado Department of Corrections (DOC) from assessing a copayment on an incarcerated individual for medical, dental, mental health, or optometric services, including specialty or emergency care services. The bill would also prohibit DOC from assessing a fee on an incarcerated individual who fails to attend, fails to provide timely notice when unable to attend, or otherwise refuses one of these.

I appreciate the bill sponsors' efforts to address the cost of health care related copayments for incarcerated micromanagement of DOC operations that I cannot support, and are better addressed though internal policy changes. DOC must retain the flexibility to determine its own policies and procedures based on the unique circumstances that come with running a state prison system, including those related to health care, and to have the ability to change what isn't working.

DOC is limited by statute to charging a maximum of $5 for copays, and already exempts many services from copay obligations, ranging from routine treatment orders to specialty referrals. In many instances, copayments assessed to incarcerated individuals at DOC are refunded after the health care services are provided. DOC policy allows for no-show fees in specific situations, which are necessary to prevent abuses of DOC's contracted health services appointments, and protect the availability of such services for legitimate care needs.

While I do not support a statutory prohibition on assessing copayments and fees on incarcerated individuals, I agree with sponsors and proponents of this measure that these individuals are ill-positioned to afford copay obligations, and we should not create unnecessary barriers to care for legitimate health needs. That is why I am signing Executive Order D 2025 007 and directing DOC to review and revise its existing written procedures relating to copayments assessed to incarcerated individuals. Specifically, I am directing DOC to reduce the amount of the copayment assessed against an individual's account for individual-initiated services; and review and revise the list of specific services for which a copayment will be waived by DOC, as well as the list of the specific and exclusive bases upon which a copayment may be waived by DOC. I am also directing DOC to enhance its data collection and analysis regarding fees charged for individuals who refuse to attend, fail to attend, or fail to properly cancel a previously scheduled medical

appointment, and to submit to me by August I, 2025 a recommendation regarding a revised policy for the use of fees for these purposes based on the data collection and analysis efforts.

While I cannot support legislation that constrains DOC's ability to adjust departmental policies and procedures based on changing needs, what works and doesn't work, and circumstances within its facilities, I believe that there is merit in reviewing existing procedures and reducing copayment costs for incarcerated individuals. As directed in my Executive Order, DOC will reexamine its existing policies and procedures to create a balanced policy approach to address this issue, without statutory limitations that could harm DOC's ability to operate facilities and conduct its mission safely and efficiently.

For the reasons stated above, HB25-1026 is disapproved and vetoed.
Sincerely,

Dear Honorable Members of the Colorado State House of Representatives:

Today, I vetoed House Bill 25-1122 (HB25-1122), "Automated Driving System Commercial Motor Vehicle," as 3:50 p.m.

I appreciate the sponsors' intent to ensure that the state highway system is safe for all road users, and I am particularly supportive of the measure that ensure the safe operations of commercial motor vehicles (CMVs), which is why I signed two bipartisan laws over just the past two years to strengthen CMV safety on Colorado's highways: Senate Bill 24-100 "Commercial Vehicle Highway Safety Measures" and Senate Bill 25-069 "Tire Chain Traction Control Device Permit."

While we as a country have yet to see widespread adoption of autonomous commercial vehicles, deployment in Colorado presents potential opportunities for improving safety. Since no other state has such a mandate, HB 25-1122 would efficiently create a first-in-the-nation prohibition on autonomous commercial vehicle testing and operations. Driver error is the leading cause of accidents, Preserving tools which would make Colorado safer is critical, especially as we've observed higher crash rates nationwide. Allowing HB 25-1122 to become law would require a driver to be present in commercial vehicles, which may undermine innovation of future technologies that could increase rad safety.

In 2017, my predecessor signed Senate Bill 17-213 (SB17-213), "Automated Driving Motor Vehicles," which set the gold standard for autonomous vehicle regulation at the state level. This bipartisan legislation prioritized the safety of Coloradans by establishing a thorough multi-agency oversight process, while also establishing a path forward for new technological innovation in Colorado. SB 17-213 created the Autonomous Mobility Task Force, a joint effort between the Department of Transportation, Colorado State Patrol, and the Department of Revenue, to evaluate the safety of autonomous vehicle deployments in Colorado. Violation the regulations outlined in SB 17-213 is a Class B traffic infraction, and the Colorado State Patrol is empowered by statute to impound or immobilize non-compliant vehicles until approval is gained through the Task Force process.

The Autonomous Mobility Task Force has reviewed six requests for autonomous vehicle testing since September 2017. Two approved requests originated from the Colorado Department of Transportation (CDOT) to purchase and operate Autonomous Truck Mounted Attenuators (ATMA) used for stripping operations. ATMAs are crucial to keep CDOT workers safe since driving a TMA is considered one of the most dangerous assignments in w work zone. There is a clear and immediate benefit to deploying ATMA Vehicles. Removing the human driver from behind the wheel os a vehicle designed to absorb the impact of a collision so that CDOT drivers in the lead vehicles are protected increases safety and maximized efficiency. CDOT has served as a national leader in this space, paving the way for five other states to test or deploy ATMAs. While ATMAs are very different from commercial vehicles, this example further demonstrates the potential for innovative technology in this space that we don't want to undermined by requiring a human driver to be present.

Drivers of commercial motor vehicles have a challenging job and we all owe them our gratitude for the important role they play moving goods across our state and country, especially in the face of senseless federal tariffs. I'm proud of the work we've accomplished in recent years to improve safe operations of commercial motor vehicles and safety for all road users. I also appreciate that with any new technology, there is a level of discomfort and uncertainty and that the intention of this bill is to address safety concerns. However, the approach set forth in HB 25-1122 would risk undermining a process that is currently working and instead limit opportunities for innovation that lead to greater safety improvements in the future. If automated vehicles are tested and deployed in Colorado, public safety will continue to be my administration's unwavering top consideration and priority.

For the reasons stated above, HB 25-1122 is disapproved and vetoed.

Dear Honorable Members of the Colorado House of Representatives:

Today, I vetoed House Bill 25-1088 (HB 25-l 088) "Costs for Ground Ambulance Services" at 3:50 p.m. The bill prohibits balance billing by certain ground ambulance services, requiring direct payments by health insurance plans for covered emergency and non-emergency out-of-network services at established reimbursement rates.

I recognize that balance bills (also known as surprise bills) can be devastating to Coloradans' personal finances, and HB 25-1088 would help ensure people don't hesitate to call 911, and I support that component of the bill. I also understand that setting a rate for out-of-network services provides predictability for smaller, rural providers. The aims of HB25-1088 are commendable, and I agree that filling this gap in enforcement is crucial to saving people money on health care.

However, those cost savings are outweighed in my view by the premium increases driven by this bill. I have been provided with estimates on premium impact that range from $0.73 to $2.15 per member per month, which means a family of four would likely pay as much as one hundred dollars more per year in insurance premiums if I were to sign this bill; by every estimate, this bill raises costs for consumers. I am committed to working with proponents and sponsors to protect Coloradans from surprise bills, but I encourage all parties to work towards a more reasonable reimbursement rate that mitigates premium impacts and nets a better deal for Colorado families.

Additionally, the bill contains several drafting issues that render it unimplementable in its current form. First, its protections cannot be enforced as the Division of Insurance (DOI) does not have jurisdiction over ground ambulances; while they can enforce carrier rates, they are unable to enforce balance billing prohibitions in this measure. Second, HB 25-1088 strikes language currently in statute regarding reimbursements for private ambulances. These struck provisions, coupled with the current language in the bill, support an argument that private ambulance services that are not contracting with political subdivisions are not subject to reimbursement rate set forth under HB 19-1174. This leaves Coloradans vulnerable to cost increases, and creates misalignment among ambulance service providers regarding reimbursement.

Several years ago I signed Senate Bill 22-040 (SB 22-040), which directs the Division to furnish an actuarial review of legislative proposals that impose a new health benefit coverage on health benefit plans or reduce or eliminate coverage under health benefit plans. The law creates a process for an objective, independent analysis of legislation that proposes changes to health benefit coverage, ensuring that policymakers have the data they need to consider benefit changes that impact costs, health

outcomes, and long-term system savings. Notably, it does not contemplate legislation that only modifies an existing health benefit or changes cost-sharing for such a benefit. This bill is not eligible for an SB 22-040 actuarial study under current law because health plans generally already cover emergency transportation to some extent; this bill modifies the rates paid to providers for those services and prohibits balance billing.

Therefore in addition to addressing the issues noted above, I am calling upon the General Assembly in this statement, as well as the signing statement for Senate Bill 25-118, Senate Bill 25-301, and Senate Bill 25-296, to amend SB 22-040 next year to ensure that bills that substantively modify existing benefits or cost-sharing for such benefits such as HB 25-1088 are eligible for actuarial analyses in the future. I encourage bill sponsors to address these flaws to ensure we can fill a gap in our surprise billing protections for Coloradans without raising premiums significantly on our fellow Coloradans.

For those reasons House Bill 25-1088 is disapproved and vetoed.

Sincerely,
