The OSA expects the Contractor to satisfy the project deliverables and timelines outlined in this RFP.

Work for this project is estimated to commence in April 2026. However, work could begin sooner or later depending on how long it takes to route and execute the contract after selection of the successful proposal. No billable work can begin on this project until the effective date of the contract.

a. Work Location

Depending on the needs of the engagement or the nature of the work being performed, some work for this engagement may be able to be completed using email, phone, and other virtual file-sharing and remote meeting technologies. However, some amount of in-person or on-site work at the Department may also be required.

b. Findings Development and Report Review

The OSA has a rigorous findings development and report review process, which includes review and revisions at multiple levels of the organization as well as review and comment by the Department. Prospective bidders should take this into consideration when preparing a proposed calendar and budget. The findings must adhere to the OSA's standards as described in "Exhibit G—Developing and Presenting Findings" of the OSA's standard contract. The OSA's standard contract containing exhibits is included in Section IV—Supplemental Information.

Section IV—Supplemental Information also includes a link to the prior audit report issued by the OSA. Prospective bidders should review that report to gain an understanding of the OSA's high expectations in terms of form and presentation.

c. Oral Presentation

The Contractor may be required to testify in person for about two hours before the Legislative Audit Committee. This testimony will be an oral summary of the written

report with questions by Committee members and verbal responses from the Contractor and from the Department. Upon notification by the OSA, the Contractor shall make an oral presentation to one other legislative committee.

If the OSA determines that the Department's findings will be presented to the Legislative Audit Committee, then the Contractor must be present in person to present the Department's findings to the Legislative Audit Committee at the end of the engagement when the Statewide report is publicly released. The OSA anticipates it will make the determination in January for which findings will be presented from the Statewide Report.

In addition, the Contractor is expected to provide oral presentations to the Department at the commencement and conclusion of the audit.

Various other meetings with the OSA and Department personnel will be required to communicate requirements, expectations, issues, and results, to ensure a smooth and timely completion.

All proposals submitted to the OSA in response to this RFP are subject to the Colorado Open Records Act (CORA). In accordance with CORA, bidders may request that the OSA withhold proprietary information (i.e., trade secrets) in their proposals from public disclosure pursuant to a CORA request.

Bidders requesting that the OSA withhold proprietary information in their proposal from public disclosure pursuant to a CORA request must prepare and submit a separate redacted copy of their proposal to the OSA. In no event may an entire proposal be classified as proprietary information.
