About This Report

This report provides a list of all bills with published fiscal notes at the 2026 legislative session, and provides the following information:

Bill Number and Short Title

Current Status in the legislative process (in committee, which committee, second reading, etc.)

Fiscal Note Publication Date for the most recent published fiscal note

Bill Sponsors in first and second chambers

In addition, the report indicates whether a fiscal note indicates a conditional fiscal impact or a range of fiscal impacts.

Conditional fiscal impact means that an impact is dependent on something else happening. For example, bills or resolutions that require voter approval are conditional upon approval at the next election.

Fiscal impact range indicate that the fiscal note estimates a range of potential outcomes depending on various factors or implementation decisions. For example, a fiscal note may indicate an estimate that likely to fall within a given range, or that it is "up to" or "at least" a certain amount.

For bills where the fiscal note indicates a conditional impact or a range, please refer to the published fiscal note for more information on the potential impact. Data captured in these reports may reflect a single estimate (high end, low end, mid-point) that does not capture the full range of potential outcomes.

Bill Information and Fiscal Note Status
