

Letters Requesting Information from State Departments

Historically, the annual Long Bill included footnotes that described the General Assembly's intent regarding an appropriation; placed a condition or limitation on an appropriation; explained any assumptions used in determining the specific amount of an appropriation; or requested information. However, pursuant to Section 24-75-112 (2), C.R.S. (enacted by H.B. 08-1321), the Long Bill does not contain footnotes that request information. Instead, the Joint Budget Committee submits requests for information to executive departments and the Judicial Branch via letters to the Governor, the Chief Justice, and other elected officials. Each request is associated with one or more Long Bill line item(s), and the requests are prioritized by the Joint Budget Committee as required by Section 2-3-203 (3), C.R.S.

Copies of these letters are included in the following pages. The first of the attached letters is to the Governor and addresses all affected departments in alphabetical order, except those under the purview of the Chief Justice or other elected officials. Letters to the Chief Justice (Judicial Department), the Attorney General (Department of Law), the Secretary of State (Department of State), and the Treasurer (Department of the Treasury) follow in that order.

Responses to the requests for information are typically summarized in Joint Budget Committee staff briefing documents (available at leg.colorado.gov/content/budget). Department submissions may also be requested in their entirety from the Legislative Library (email: lcs.ga@coleg.gov; or telephone: (303) 866-4011).

Hon. Jared Polis
Governor
136 State Capitol
Denver, CO 80203-1792

Dear Governor Polis:

The General Assembly recently finalized the FY 2025-26 Long Bill. Pursuant to Section 24-75-112 (2), C.R.S., the Long Bill footnotes no longer include requests for information. In lieu of such footnotes, the Joint Budget Committee respectfully submits the following requests for information. These requests are associated with specific Long Bill line items, and each has its own details and deadlines. Consistent with the provisions of Section 2-3-203 (3), C.R.S., information requests have been prioritized within each department in the attached lists.

To assist our staff in organizing and tracking submissions, we would appreciate if the department would follow the protocol outlined in an attachment to this letter with respect to submitting hard copies and electronic responses. The Committee requests that the department comply with these requests for information to the fullest extent possible.

Please notify us by June 20, 2025 if the department does not intend to comply with any requests.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jeff Bridges".

- 6 Department of Early Childhood, Community and Family Support, Early Intervention – The Department, in collaboration with Early Intervention brokers and, to the extent possible, other Early Intervention service providers, is requested to submit, on or before June 15 and December 15, a report to the Joint Budget Committee concerning agreed-upon cost containment measures which may be enacted immediately in FY 2025-26 or in FY 2026-27 to ensure the financial sustainability of the Early Intervention program while maintaining strength of service delivery for children. The cost containment measures should target savings of no less than \$1.0 million in FY 2025-26. The report should include but not be limited to analysis of the following:
 - a. Elimination of Extended Part C – Extended Part C provides services to children who have reached their third birthday but not yet started preschool. Cost containment measures listed above would reduce services for this cohort but not eliminate them. CDEC has indicated that Extended Part C saves the state money because it enhances federal financial participation; however, additional analysis should be done to examine to what extent it provides the state savings as well as assess the impact to the children receiving the gap services.
 - b. Strengthening of the eligibility determination tool – Developmental Assessment of Young Children (DAYC). This tool is purported to over-identify children in some areas of its eligibility determinations. At the same time, training on alternative determination tools has been limited. Analysis should determine how to better strengthen its use and/or whether an alternative tool is more appropriate.
 - c. Analysis of the bifurcation of information and referral system – In 2022, CDEC assumed information and referral processes for most of the state’s EI brokers. Analysis should examine the financial impact of this decision in terms of cost to the state and in terms of efficiencies for families in navigating the system.
 - d. Review of eligibility determination criteria to ensure state dollars and services are directed to the children most in-need and with consideration given to future

financial impact for state-funded services. This analysis should include exploring if changes to eligibility, potential service limitations and an examination of chronic conditions, like chronic ear infections, which may not rise to the level of Early Intervention services need, but also to the future financial impact of *not* providing sufficient and timely services to children. This review will ensure that children most in need continue to be eligible for EI and alternative services are considered for those children who may no longer be eligible to ultimately put the program on a sustainable growth path.

- e. Continued investigation and implementation of primary service provider model using evidence-based practices. This should take into consideration medically complex children whose needs may not be adequately met with this model of service delivery.
 - f. Analysis of payment and contracting execution timelines for Early Intervention to identify pain points as well as simplifications or solutions.
 - g. Evaluation of whether program modeling for future costs may be best accomplished through a contract with another state agency with greater resources to model costs, including but not limited to the Department of Health Care Policy and Financing.
 - h. Review of private insurance billing systems and investigation of potential cost sharing mechanisms which would maximize state resources for the children and families facing the greatest financial barriers to these services.
- 7 Department of Early Childhood, Partnerships and Collaborations, Local Coordinating Organizations and Early Childhood Councils – The Department is requested to submit on or before September 1, a report to the Joint Budget Committee concerning duties and expenses related to the Local Coordinating Organizations (LCOs) and Early Childhood Councils (ECCs). The requested report should include following information:
- a. An overview of LCOs and ECCs including their roles and responsibilities in early childhood services, their legislative or administrative origins, and any known collaboration or overlap of their functions;
 - b. The organizational structure and history of LCOs and ECCs including year(s) of establishment, legislative or administrative mandates, initial purpose, evolution of roles and functions over time, what types of organizations or entities serve as LCOs, how often a single organization fulfills both roles of LCO and ECC and how the roles are managed;
 - c. The roles and functions of LCOs and ECCs including primary responsibilities and areas of focus for each compared to the other, how LCOs and ECCs currently collaborate or interact, and what the defined boundaries or guidelines for the division of responsibilities are between the two entities;

- d. The redundancies and efficiencies between LCOs and ECCs including in service delivery, administration, funding, what the known efficiencies are in their collaboration or distinction, and how stakeholders perceive the overlaps or duplications;
 - e. The funding and budgetary details including what the current funding streams are for LCOs and ECCs are including state, local, federal or private, and what overlaps or inefficiencies in funding allocations are present;
 - f. The administrative functions of each entity including what percentage of their budgets are allocated to administrative costs versus direct services or system improvements;
 - g. The governance and accountability of each including their structure, how they are held accountable for achieving goals and results, and what the performance metrics or evaluation frameworks are for each;
 - h. The operational practices of each including how they address community needs, engage stakeholders, what challenges exist for each, and what examples of best practices or innovative approaches are unique to LCOs and ECCs.
- 8 Department of Early Childhood, Partnerships and Collaborations, Early Learning Access and Quality, Family and Community Services – The Department is requested to submit on or before September 1, a report to the Joint Budget Committee concerning expenses and governance related to grant programs overseen by the Department. The requested report should include following information: (a) how many grant programs are administered by or through the Department; (b) how the grants through each grant program are administered; (c) how many grants are awarded through each grant program; (d) the average grant awarded to each awardee for each program; (e) how many families and how many children are served by the grant programs; and (f) the administrative costs related to administering each grant program.
- 9 Department of Early Childhood, Early Learning Access and Quality, Child Care Assistance Program and Universal Preschool Program – The Department, in collaboration with Local Coordinating Organizations (LCOs) and local Child Care Assistance Program (CCAP) administrators, is requested to submit on or before September 1, a report to the Joint Budget Committee concerning the overlap in services and funding for children dually enrolled in CCCAP and Universal Preschool (UPK). The report should include the following: (a) how many children are dually enrolled in CCCAP and UPK; (b) to what extent funding for dually enrolled children is or can be stacked; (c) to what extent funding for dually enrolled children is or can be blended or braided; (d) which funding stream is or should be “first in” for dually enrolled children; and (e) how information regarding dually enrolled children is shared between programs.
