Colorado State Capitol
200 E. Colfax Ave, Room 029
Denver, CO 80203

Dear Amanda,

Thank you for the opportunity to bid on installing an art hanging system at the Capitol. My bid is \$10,864.00 will include all the hardware and labor, with an occasional assistant, to install the system for the following areas:

30 areas of flat track system for a total of 180 linear feet

18 areas of the curved track system in the Rotunda to total 108 linear feet

This bid is based on my having full use of the driving lift there at the Capitol. Also I would need to know if the open walkway in the Rotunda where the presidents now hang will support the weight of the lift. Using a ladder would increase installation time considerably plus using a ladder is just too dangerous in the Rotunda.

This does not include any of the cables or locking hooks. It is always best to use two cables for each piece of art. There is one type of cable for each separate system but the locking hooks are universal.

You would need 96 cables and 96 hooks to fully populate the tracks and the price presently listed would be about \$1400.00. I'd be glad just to order them and have them shipped to you when you are ready.

Thank you again Amanda for allowing me to submit this bid.

Best Regards,

Bruce Marsden
